**ELIMINATING
WHEEL LOSS**

**WHEEL
SAFETY
SOLUTION**

Losing a wheel creates a multitude of problems: damage to components, interruption to your daily routine, the effect on your reputation as well as the chance of injury or loss of life. Plus the need to report the incident with the possibility of investigation and fines.

You may say "It's never happened to us" – some of our best customers said that once!

The answer is this simple yet innovative device from Parma Industries.

Solve the problems – Fit Prolock
